Subject Index

Abdominal wall

- long-term evaluation of the abdominal wall competence after total and selective harvesting of the rectus abdominis muscle (Galli et al) 1992;28:409
- reconstruction of a major abdominal and chest wall defect using latissimus dorsi and extended deep inferior epigastric artery flap (Sharma et al) 1992;28:366 (Case report)

Abdominoperineal resection

- anorectal melanoma: clinical characteristics and the role of abdominoperineal resection (Slingluff and Seigler) 1992;28:85

Abductor digiti minimi muscle

- accessory abductor digiti minimi muscle originating proximal to the wrist causing symptomatic ulnar nerve compression (Luethke and Dellon) 1992;28:307 (Case report)

Academic medicine

- another good man—gone (Wray) 1992;28:309 (Editorial)

Acral lentiginous melanoma; see Melanoma

Adipofascial flaps; see Flaps, adipofascial

Aesthetics

- aesthetic improvement of the nail by the "illusion" technique in partial toe transfer for thumb reconstruction (Foucher and Sammut) 1992;28:195 (Gadgetry)
- re: buccal fat pad excision: aesthetic improvement of the midface (Newman) (Letter); (Matarasso) (Reply) 1992;28:502, 503
- rhinoplasty and facial expression (Cachay-Velásquez) 1992;28:427

Aging

- thyroid disorders masquerading as aging changes (Klatsky and Manson) 1992;28:420

Alcoholism

- simple preoperative method of screening for alcoholism (Lewis et al) 1992;28:207

Analgesia

- intraluminal lidocaine for analgesia after tissue expansion: a double-blind prospective trial in breast reconstruction (Sinow and Cunningham) 1992;28:320

Anesthesia, local

- new infiltration needle for rapid local anesthesia in retro-mammary breast augmentation (Brandy) 1992;28:331

Angiofibroma; see Angioma, sclerosing

Angioma, sclerosing

- shave excision and dermabrasion for facial angiofibroma in tuberous sclerosis (Drake et al) 1992;28:377 (Case report)

Anorectal neoplasms; see Rectal neoplasms

Areola; see Nipples

Arm

- posttraumatic upper extremity wound coverage utilizing

- the extended deep inferior epigastric flap (Seitchik et al) 1992;28:465 (Case report)

Arterial flaps; see Flaps, arterial

Arteriovenous malformations

- embolization in high-flow arteriovenous malformations of the face (Komiya et al) 1992;28:575 (Case report)

Auricle; see Ear

Autoimmune diseases

- silicone breast implants and immune disease (Shons and Schubert) 1992;28:491 (Overview)

Autologous transplantation; see Transplantation, autologous

Autotomy; see Self mutilation

Blepharoplasty

- re: carbon dioxide laser blepharoplasty—advantages and disadvantages (Morrow) (Letter); (Mittelman) (Reply) 1992;28:397, 399
- thyroid disorders masquerading as aging changes (Klatsky and Manson) 1992;28:420

Blood circulation

- critical threshold for tissue viability as determined by laser Doppler flowmetry (Hallock) 1992;28:554
- experimental study of prefabricated flaps using silicone sheets, with reference to the vascular patternization process (Itoh) 1992;28:140

Blood flow, regional; see Regional blood flow

Blood vessels

- use of high-frequency ultrasound for the dissection of small-diameter blood vessels and nerves (Fischer et al) 1992;28:326

Bone marrow transplantation

- autologous bone marrow transplantation and melanoma: a focused review of the literature (Fields) 1992;28:70

Bone plates

- noncompression unicortical miniplate osteosynthesis of mandibular fractures (Davies et al) 1992;28:414
- plate and screw fixation of selected condylar fractures of the mandible (Sargent and Green) 1992;28:235

Bone screws

- plate and screw fixation of selected condylar fractures of the mandible (Sargent and Green) 1992;28:235

 - technical modifications for on-site nipple-areola reconstruction (Chang et al) 1992;28:277
- Buccal fat pad**
- re: buccal fat pad excision: aesthetic improvement of the midface (Newman) (Letter); (Matarasso) (Reply) 1992;28:502, 503
- Burns**
- experience with novel uses of tissue expanders in burn reconstruction of the face and neck (Spence) 1992;28:453
 - re: which dressing for split-thickness skin graft donor sites? (Benmeir and Shemer) 1992;28:590 (Letter)
- Carbon dioxide laser; see Lasers**
- Carcinoma, squamous cell**
- total lower lip reconstruction in advanced squamous carcinoma: application of the gate-flap technique (Gürel et al) 1992;28:434
- Carmustine**
- adjuvant chemotherapy in malignant melanoma using dacarbazine, carmustine, cisplatin, and tamoxifen: a University of South Florida and H. Lee Moffitt Melanoma Center Study (Saba et al) 1992;28:60
 - treatment of stage IV malignant melanoma with dacarbazine, carmustine, cisplatin, and tamoxifen regimens: a University of South Florida and H. Lee Moffitt Melanoma Center Study (Saba et al) 1992;28:65
- Carpal tunnel syndrome**
- two devastating complications of carpal tunnel surgery (Cartotto et al) 1992;28:472 (Case report)
- Case reports**
- accessory abductor digiti minimi muscle originating proximal to the wrist causing symptomatic ulnar nerve compression (Luethke and Dellon) 1992;28:307
 - adipofascial turnover flap for elbow coverage (Lai et al) 1992;28:190
 - bilateral solitary glomus tumors of the hands (Sank and McClinton) 1992;28:301
 - case of giant cell tumor of the parotid gland (Itoh et al) 1992;28:183
 - congenital double lip: report of five cases and a review of the literature (Benmeir et al) 1992;28:180
 - embolization in high-flow arteriovenous malformations of the face (Komiya et al) 1992;28:575
 - epidermal nevus: surgical treatment by partial-thickness skin excision, with invited comment by Kaplan (Dellon et al) 1992;28:292
 - free ascending scapular flap (Iwahira and Maruyama) 1992;28:565

- local muscle flap in a venous hypertensive environment (Francel et al) 1992;28:297
- malignant melanoma with evidence of maturation arising from a giant congenital nevocellular nevus (Workman et al) 1992;28:381
- management of traumatic supraorbital neuroma (Friedman et al) 1992;28:573
- new method for correction of Stahl's ear (Tsujiguchi et al) 1992;28:373
- plantar fibromatosis and bilateral flexion contractures: a review of the literature (Classen and Hurst) 1992;28:475
- posttraumatic upper extremity wound coverage utilizing the extended deep inferior epigastric flap (Seitchik et al) 1992;28:465
- reconstruction of a major abdominal and chest wall defect using latissimus dorsi and extended deep inferior epigastric artery flap (Sharma et al) 1992;28:366
- reconstruction of children's scalp defects with the Orticochea flap (Yang et al) 1992;28:584

- Chemotherapy; see Drug therapy**
- Chest**
- reconstruction of a major abdominal and chest wall defect using latissimus dorsi and extended deep inferior epigastric artery flap (Sharma et al) 1992;28:366 (Case report)
- Child**
- reconstruction of children's scalp defects with the Orticochea flap (Yang et al) 1992;28:584 (Case report)
- Chondroma**
- soft tissue chondroma presenting as a painful finger: diagnosis by magnetic resonance imaging (Wong and Dellon) 1992;28:304 (Case report)
- Ciprostene**
- ciprostene and indomethacin partially reverse the mechanisms of distal end necrosis in the rat random skin flap, with invited comment by Pearl (Salerno et al) 1992;28:526
- Cisplatin**
- adjuvant chemotherapy in malignant melanoma using dacarbazine, carmustine, cisplatin, and tamoxifen: a University of South Florida and H. Lee Moffitt Melanoma Center Study (Saba et al) 1992;28:60
- treatment of state IV malignant melanoma with dacarbazine, carmustine, cisplatin, and tamoxifen regimens: a University of South Florida and H. Lee Moffitt Melanoma Center Study (Saba et al) 1992;28:65
- Cleft lip**
